Canvey Island Southern Shoreline Revetment Project

Saturday 5 and Sunday 6 April: weekend working

We will be taking advantage of the tidal window on Saturday 5 and Sunday 6 April to carry out works for the Concord Beach phase. The working hours will be 08:00 to 18:00.

We have agreement for this work from Castle Point Borough Council. We will be using Compound 2, located by the Moviestarr, for staff welfare and work purposes. We will also need to access Compound 3 (main compound) on a limited capacity basis as we will need to move some materials.

Please note that we will continue to monitor levels of noise and vibration for the locations we will be working in, and this is not likely to be a regular occurrence.

We appreciate your patience and cooperation. If you have any questions or comments, please call the project team on 07751742117 or email us using the following address:
